CLARESHOLM LOCAL NEWS

Miss Fair is spending the week end with her parents in Calgary. Mrs. Benson of Calgary is visiting with Mr. and Mrs. Richard Brown.

The Prize List of the Agricultural Society will be ready for distribution next week.

Mrs. Stanley Ferguson and family left last week to spend the summer on the farm at Bindloss. Rev. and Mrs. Lockie left on Thursday to attend the Methodist conference now being held in Calgary.

Roy Stebbins was appointed secretary of the Chautauqua committee for 1921. He is prepared to supply season tickets to those wishing to visit them.

The pulpit of the Methodist church will be occupied next Sunday morning by Mr. J. W. Hallay. The service in the evening will be withdrawn.

In token of appreciation of her services as organist, the Methodist congregation at their annual meeting on Monday evening presented Miss Mabel Barber with fine club bag.

A. C. Rioux left on Tuesday for his old home at Mont Joli, Quebec, to visit his father and mother, who are getting along well in years. It has been twelve years since Mr. Rioux was in Mont Joli last.

We would like to have our E. W. A. members do all they can to help make the sale on June 11th a success. The rest room is in a much neater condition than last year, so help is not needed. Anyone who is not a member will be given an opportunity to help.—Secretary.

S. L. Fraser left on Wednesday morning for Edmonton and Wainwright. While away he will look over the conditions in the Wainwright and Irma districts. Chap land near the railroad is getting scarce and especially in the wheat growing districts. Mr. Fraser expects to return next week.

The annual Congregational meeting of the Methodist church was held on Monday last. Reports from the various organizations of the church were given, all of which gave evidence of great prosperity. A series of meetings of singing, readings and instrumentalists, as well as the reports, and altogether a very enjoyable and profitable evening was spent. Luncheon was served in the hall at the close. The financial reports showed all assessments paid in full, the missionary giving amounts \$2,000.00, and salary paid to Mr. Lockie over and above his little over \$1,000.00 dollars in hand to start the new financial year. No change is anticipated in the pastorate this year. Mr. Lockie received a unanimous vote of confidence to remain for another year.

At a meeting held in the Claresholm School of Agriculture on Saturday May 28th, a committee was organized to carry on school fair work in the Claresholm District for the coming year. District Organizer G. A. Richardson was in charge. The committee appointed is composed of the teachers of the various school districts together with the following members: H. O. Haslam (chairman), Rev. Crimp, J. J. Strang, Rev. Locke, J. McKinney, T. D. Lewis and Rev. Mitchell. G. Shearer was appointed secretary with Mr. Mc-

Price to act in this capacity until Mr. Shearer's return. He was moved by Miss Fair seconded by Miss Walsh that the 1920 prize lottery should be remodeled to include such other entries as the committee should decide upon.

"THE SHEPHERD OF THE HILLS"

"The Shepherd of the Hills," that widely read story of the Ozarks, has been dramatized under the direction of Harold Bell Wright, its author. As a novel this story has attained a popularity which has made it equal to any other book in a decade. As a play the success of this work was phenomenal, and as a picturization under the direction of Mr. Wright, the story is fair to compare with the art of the silent drama. This picture has been made in the heart of the Ozarks and in California. Mr. Wright and his associates engaged the services of his great wife. No expense has been spared, an detail overlooked, and all who are familiar with Mr. Wright's story realize how the unlimited possibilities of the motion picture camera will make the great west pictures of the author into the most real pictures ever filmed stored in ten reels, with incidental music written and selected especially, and will be presented Monday and Tuesday, June 13-14, at the Rex theater.

Claresholm Park Association

At a recent meeting of directors the secretary presented a favorable financial report showing that the greater part of the outstanding indebtedness had been wiped out at the time of the successful 24th of May. Besides the outstanding mortgages which amount to \$1300.00 the Association has reserves about \$1500.00, a small amount of old number accounts, etc., incurred in 1919. It was resolved to have a sports day on July 1st as it was a success last year. Exhibition people would be invited. Mr. E. Moffatt, O. J. Berg and A. L. Reinecke were appointed a committee on general sports affairs. Mr. Watt, Mr. King and Mr. T. Kingford on races, etc. Amongst other things it was felt that an auto parade possibly in conjunction with a caletumian parade would be an interesting feature for Dominion Day.

Claresholm Red Cross Campaign

A large audience turned out on Wednesday evening to hear Mr. O. J. Berg, a Calgary alderman and lawyer, give a very interesting address on the Red Cross organization and the needs of the same. Mr. Alexander, the president of the local campaign committee, occupied the chair and also gave a few well chosen remarks. Series of lantern slides were shown.

As all must be aware the campaign commences on Sunday the 5th inst. and is a campaign for members at \$1.00 a head, the amount subdivided to enable each person to carry on the Red Cross peace time work in unsettled districts, in necessitous cases, in the case of wounded soldiers and their families and in other matters. There can never be call on you, so have the dollar ready.

The Rev. A. J. Mitchell will

devote his sermon to the subject

of the Red Cross at the service

in the Presbyterian church on Sunday the 5th inst.

Claresholm Department Store

Our stock of White Canvas Shoes for men, women and children, in all styles, has arrived; leather and rubber soles; prices right.

A special line of men's two-piece Suits in brown, blue and green at \$20.00, young men's models.

Holeproof Hosiery for men and women, in the popular colors.

A Constructive Colonization Project

On more than one occasion during the past two or three years; in fact ever since the signing of the Armistice turned men's thoughts and energies from war back to the pursuits and activities of peace, articles have appeared in this column laying emphasis upon the importance, yes, the urgent necessity, of a large increase in the number of living upon and producing from the land. The view has been advanced with the slightest fear that such a movement would result in Canadian political problems. This is to be found in increased population; that is, increased population definitely and actively engaged in the primary industry of producing new wealth out of the undeveloped natural resources of the Dominion—the chief and most easily worked of which are the now unoccupied but fertile agricultural lands of the West.

It requires no great farsightedness to arrive at the above opinion. Any intelligent man who has given sufficient attention to the subject will know he is a very deep student at that. Canada's billions of public debt occasioned by the war can only be carried, and ultimately liquidated, through the taxes paid by the people. But taxes cannot be paid unless people have money, and money is not made merely by the act of trading in existing commodities. New wealth must be created, and it can only be created by natural resources—from the land, and secondly, from the other undeveloped natural resources—the mines, the forests, the fisheries, etc.

Every new settler placed on the present unoccupied lands of Western Canada means—

1. An additional producer of new wealth.
2. Another taxpayer to carry a portion of the public debt whether that debt is represented by the national war bill, (b) provincial, (c) municipal, (d) school.
3. Increased ability and power to provide needed facilities such as schools, highways, bridges, telephones and other public services.
4. Closer settlement, with doctors, hospitals, nurses, churches, postal services, and all the advantages of modern community life nearer at hand.
5. An assurance of an increased volume of traffic for railways and other transportation systems, and consequently largely increased revenues and decreased operating deficits, and at the same time reduced passenger and freight rates.
6. All the natural and inevitable sequel to the above, added value to every acre of land in the whole country.

The opening up of the unoccupied lands of the West means the bringing of those decided reforms and advantages, and the solution of now heavy pressing national problems of finance and taxation, surely all Governments, public bodies, and people generally, should not merely welcome, but unitely support anything and everything carefully designed and organized with the avowed object and sole purpose of encouraging and promoting the colonization and settlement for profit, use of the unoccupied lands of this country.

In the daily and weekly press during the past week there appears the full text of a memorandum recently submitted to the Provincial Governments of Manitoba, Saskatchewan and Alberta by the managing director of the Western Canada Colonization Association, in which are set forth the studied conclusions of that organization as to the steps it is now necessary to take in order to turn the unoccupied lands of the West into agricultural lands of Western Canada. That memorandum is deserving of the careful study of every man in these Western Provinces who has his own, his neighbor's, and his country's success and prosperity at heart.

It is to be borne in mind that the Western Canada Colonization Association is not a money-making, dividend-paying concern. By its character from the start it is a public service organization, for the simple reason that it is like the Exhibition Association in these Provinces—a body of men who have contributed money with a public spirit and a broad vision. Exhibition Associations cannot pay dividends; their work is the fostering and developing of their respective communities. Men who take a share of stock in an Exhibition Association give of their time and effort to the work, and expect nothing in return, so why should not their reward and reward can only come through the advancement and increased prosperity of the whole community. In that way, and that way only, can they reap profit from their money and their work.

So, too, with the Western Canada Colonization Association. Only in its case the whole West is its field. The plan outlined by this Association is not a scheme to be undertaken by the Government. It is a scheme to be undertaken by the Government; only for the co-operation of the Government and Government departments. Its plan certainly appears to be worthy of a trial, and to merit the support of Governments in the first instance, and sympathetic co-operation by the people once the plan is officially adopted and the machinery for the carrying out of the scheme actually set in motion.

No Message Sent To The Sinn Fein

British Dept. Report That Peace Offer Was Made

The British Government has sent no message to the Sinn Fein "by anybody, or authorized anybody, to open negotiations in its behalf," Austin Chamberlain, the Government spokesman, announced in the House of Commons. Mr. Chamberlain made this announcement in answer to a question concerning the activities of John J. Farrell, former lord mayor of Dublin, who stated in that city, that a peace offer was to be made to the Irish Republican Parliament.

Speaker's Chair Has Arrived.

The replica of the Speaker's chair at the Canadian Parliament, which was accepted by all members of the British House of Commons, was unshipped from the steamer Canadian Raider, which docked at Montreal, and was despatched to Ottawa.

Proposed Stockyards

United Farmers Urge Establishment Of Yard in B.C.

A sequel to the resolution adopted at the recent convention of the United Farmers of British Columbia urging the government to establish stockyards in British Columbia, is the announcement of President Copley of the United Farmers, that that organization will in all probability erect stockyards at New Westminster to assist British Columbia stockmen and dealers in getting into the local market. Over 16,000 head of beef cattle were shipped from the province of Alberta in 1920.

The pipe lines in America, used to carry petroleum from the wells to refineries for storage, are reflected in the map in length to girdle the earth at the equator.

Alberta Crop Prospects

Believed That Area in Wheat Will be Larger Than Last Year.

"Fewer acres and more bushels" is the phrase by which the aims of the Alberta Crop Surveyors are described by a Leitchbridge town which estimates that the area in crop in the surrounding country will be from fifteen to twenty-five per cent, and more than it was last year, but that considerably more sunflowering will be done than any year previous year.

Any reduction in the area in crop in the southern portion of the province will be offset by a corresponding increase in the central and northern portions. Indeed, it is too early yet to say definitely that the acreage in crop in the south will be smaller than it was last year. From present indications we have said that the area in wheat will be larger than it was last year. There are two reasons for this. One is that the season opened earlier than it did last year, thus giving the farmers an extra month to sow their wheat. The other reason is the more favorable market for oats and other grains.

More and larger areas are being planted to barley, especially in parts of the province and many more will be sown this summer. Wintery and winter wheat, where it has been planted has come through in winter in good condition, and the range grass is making a good start.

Pumpkins From Irrigated Land.

Pumpkins of all kinds and varieties have been grown successfully for four consecutive years on irrigated land near Brooks, Alta. During the past two falls two carloads of green Hubbard squash and smaller pumpkins were shipped to the Calgary market. These gave a net return of over \$200 per acre.

British Columbia Orchards.

An orchard survey recently made by the Horticultural Branch of the B.C. Department of Agriculture gives the general area of land under cultivation at 19941 acres. To this amount 12,915 acres are situated in the North Okanagan territory, while the balance, 7,076 acres, is situated in the south.

On Its Way.

"And what is an egg?" asked the missionary who was testing his hopefuls' knowledge of English.

"An egg!" said the boy. "Is a chicken not yet?"—Watahean-Examiner.

In the year 1709 an edict was issued at St. Helena for the punishment of persons gossiping. So severe was the penalty imposed that gossip was for ever banished from the island.

If a woman only knew her husband as well before as she does after the chances are that she would marry some other fellow.

Even the man who expects the unexpected is apt to be surprised when it happens.

Allies Have Not Solved Secret Mechanism of "Big Bertha".

Far Eluded Discover.

The secret of the mechanism of "Big Bertha" has so far eluded discover.

The secret of the mechanism of "Big Bertha" and the three long-range guns of that type which the Germans are known to have possessed, has so far eluded discovery. The Germans may have surrendered, but down to now the Germans have refused to obey. A grant of 500,000 francs was made by the French Government for research work on the gun, but the secret remained secret, but down to the present nothing is known by the Allies, apparently, as to how these guns were made. The efforts are continuing, and the work is the now the hands of the French naval artillery department.

Now A Screen Personality

Prince of Wales Makes Ideal Camera Subject.

As an additional personal project the Prince of Wales has eclipsed the leading favorites in England. It is told in London of a paper who followed the recent Official Tour Film from theatre to theatre, and admitted that she had spent over £2,000 in having the screen made up to her beauty. A favorite with the topical cinematographers, the Prince is certainly an ideal camera subject. He is always perfectly "natural," and his prowess as a horseman—glanced again on the screen would do credit to a real champion.

It's difficult for a man with a boat-rocking wife to paddle his own canoe.

Murdered!

Put right out of business, a whole family of good honest folks, but a family of cowards, grossly negligent that sting. Putman's Carb Extractor is the only painless, safe, and non-resident license fee.

Fisherman covet extenstively the kind of fish to be had in each province, the open seasons, and the resident and non-resident license fee. Fishing being a popular summer pastime in Canada this little booklet will in all probability be in great demand and prove of great service for the information it contains.

Keep Minard's Limiment in the house

May Ship Fruit Via Panama Canal.

R. G. Parkhurst, Vancouver, manager of the Royal Mail Steam Packet Line, which will shortly have ships operating from Vancouver to the Old Country via the Okanagan region, and destined with fruit and vegetables for sending apples to the Old Country via the Panama Canal. It is expected that there will be a good movement of apples to the markets of the United Kingdom this fall.

A SPLENDID TONIC FOR WEAK PEOPLE

Dr. William's Pink Pills Act On the Blood and Nerves.

Food is as important to the sick person as medicine, to those suffering from a bad cold, diet may even save life. A badly chosen diet may easily render the patient worse. Proper appetite is the best guide to follow; if sickness the appetite is often lost.

Proper food and a good tonic will help most people in good health. Dr. Williams' Pink Pills are a fine tonic medicine, harmless and certain in their action, which is to build up the system, to bring it into a proper run-down system. For growing girls who are thin and pale, for pale tired children, for old women, for those in strength, Dr. Williams' Pink Pills are an ideal tonic. Thousands have been sold and the results speak for the use of this medicine, among them Mrs. William Gialis, Huntsport, N.S., who has had a bad cold for months. Dr. Williams' Pink Pills I was so weak and run-down that I could hardly get out of bed, I was tired from tiredness and was very nervous. Then I began the use of Dr. Williams' Pink Pills and I am now strong and healthy again. I have tried them in the use of this medicine, among them Mrs. William Gialis, Huntsport, N.S., who has had a bad cold for months. Dr. Williams' Pink Pills I was so weak and run-down that I could hardly get out of bed, I was tired from tiredness and was very nervous.

You can get Dr. Williams' Pink Pills through any dealer in medicine or drug store. Price 25¢ a box, 50¢ a dozen boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

Eggs Shipped From Moose Jaw.

Approximately half a million eggs, comprising six carloads or 2,700 cases, were shipped from Moose Jaw to Canadian and American markets during the month of March. The shipment is record for any one Prairie city at this time.

Mother Graves' Worm Exterminator will drive worms from the system and cure all worms, including ringworm, fully effective, is mild.

Automobiles As Dental Parcels.

The equipment of two automobiles as dental parlors to look after the dental requirements of children in settlements far away from dentists was developed upon recently by the Saskatchewan provincial executive of the Red Cross.

McDonald Has Now Discarded Cane And Walks Well As Ever

"I just simply think there's nothing like Tanlac, for the way it has rested me awake most of the night.

"About two months ago I started taking Tanlac, and three bottles of this medicine made me feel like a different person. I have never had a trace of hunchback, rheumatism or stomach trouble left with me, and have gained twelve pounds in weight. The cane I used to walk with stands in the corner. I could not stand without it, and I certainly don't have a trace getting my clothes on. In a few months my legs and arms got to hurting terribly, and I was so crippled up I couldn't get around without the aid of a cane. I was hardly able to eat anything, and

suffered from gas bloating and pains that were simply terrible. The pains kept me awake most of the night.

A SQUARE DEAL FOR THE SETTLER

Is the Aim of the Western Canada Colonization Association.—It Can Be Realized Through Co-operation from the Prairie Province Governments—Legislation Necessary to Assure Success.

(By J. W. Dafee, Editor-in-Chief of the Manitoba Free Press)

In times of difficulty and distress the dependence of all sections of the country upon each other is evident. In periods of plenty, however, there is a period of abounding prosperity when the need for co-operative action is not so apparent.

At the moment Canada is faced with a problem of immense magnitude how to induce rapid and successful development of the vacant lands in the West in proximity to the railway lines.

The old immigration movement—the combined result of many independent agencies—was directed by the Government railways and land companies—was pretty well over before the war to precipitate this character.

Now the factors of the problem are so changed that the old agencies, if they could be induced to work again, could not renew their old successes. Everything is changed; the people are scattered; the nature of the appeal that must be made to secure them and their machines, tools and equipment must be placed and placed in locations where their presence will be advantageous to themselves and of benefit to the country.

The immigrants needed are people who come with families to teach their sons farm homes for themselves; they must have a moderate amount of capital now that there are no more free homesteads; they must have a farm work, or at least opportunity for it is desirable. There is no market for the work of the men of this type to whom the prospect of a home in Western Canada, if it could be brought about, would be irresistible; appeal just as there are available for them the very homes they want if the land can be found to bring the vacant lands and the home-seeker together.

The Canadian Colonization Association has come into existence in the expectation that it will be able to recruit, organize and develop, devising and carrying out plans by which the desirable immigrants in other parts of the world will be secured to the new home in Western Canada a business investment instead of a home. It is the desire of the people to be able to decide before hand the district to which he is to go and he will be given the land he requires without delay and without uncertainty. The cost will be in sight.

The beneficial effect upon immigration of an arrangement like this which assures the immigrant of a definite assurance of considerate treatment and a square deal, will be beyond calculation. The whole movement in the incubus of the suspicion that it is a device to bring the immigrant into the country in its proper light as a co-operative disinterested attempt to do away with the evil of sending the empty spaces of the West with all the attendant benefits that will come with the settling of the land.

The Western Canada Colonization Association has been formed to endeavor primarily to inducing the right kind of settlers to come to Canada. It will do this by co-operation with every agency existing or hereafter to be created in behalf of the same. The members provided they work towards a common object to co-operate to this end.

Co-operative Creameries In Saskatchewan

Development of Dairy Industry Makes Interesting Story.

Some details in connection with the working of the Co-operative Creameries in Saskatchewan tell an interesting story of the development of the dairy industry in that province.

The first creameries, twenty-five creameries, five cold storage plants, and three poultry landing stations. During the past year a \$300,000 plant was built in Regina for use as a central plant. It is one of the most up-to-date dairy buildings in Canada. Thirteen of the creameries were originally constructed by the Dominion Government before the western provinces were formed. When the latter was brought into the confederation these were taken over by the provincial government and four others built. In 1917 the Saskatchewan Co-operative Creameries, Limited, was organized, and the creameries were turned over to the farmers themselves to run, and they were brought into line.

Last year the association did a business amounting to \$3,000,000 and has paid eight per cent. on the capital stock for the past three years. In addition to the creamery, the butter age houses of twenty-one points put a fat to those who dealt with the creameries. At any point at which the farmers wanted to establish a co-operative creamery, they subscribe capital, receive ten per cent., while he has to pay up, then the government supplies the money at 6½ per cent. interest, which the creamery pays back as it is able.

Heavy Trail in North.

In view of the enormous amount of game that is travelling over its lines, the Edmonton, Dunvegan and British Columbia Railway found it necessary to put additional equipment into service to handle the passenger traffic. The passenger train on the last train bound north was a party of South Americans interested in oil possibilities of the north country.

Investigating

Cattle Embargo

British Commission Will Decide Whether Abortion Is Admissible.

The arrangements for the official inquiry into the embargo on cattle imports from Great Britain have now been completed. Lord Finlay will be chairman of the commission and the other members will be Lord Alverstone, Sir Algernon Fifth, Sir W. G. Sumner and Sir Arthur Shireman.

Instructions to the commission are as follows: To enquire into the admission into the United Kingdom of livestock other than for immediate purposes; to ascertain whether the action of the embargo would be cheapest and to decide whether it is advisable, having regard to the necessary protection of livestock already here from disease and restoring their health, to impose the losses during the war period.

The commission was dissolved after the embargo on Canadian cattle coming into Great Britain had been an open and issue, by the Daily Mail.

Lord Balfour, the Prime Minister, and the Labor party in the election at Dudley at which the Minister of Agriculture, Sir Arthur Boscawen Griffith, was defeated by the Labor candidate, has accepted the election as accepting a position.

It is the opinion of the Labor party that the election the Labor party's speakers and the Express argued that the embargo increased the cost of living.

Crop Conditions In Alberta

Farmers Report More Moisture Than For Past Four Years.

Crop conditions in Alberta are very favorable and seeding operations are fully up to the standards of the season; a result of the provincial department of agriculture.

Since the opening of spring, seeding has been carried throughout the province with very good results.

In Southern Alberta, conditions are rather better than usual and farmers report that there is more moisture in the ground than there has been in the past four years. It is expected that the whole movement in the incubus of the suspicion that it is a device to bring the immigrant into the country in its proper light as a co-operative disinterested attempt to do away with the evil of sending the empty spaces of the West with all the attendant benefits that will come with the settling of the land.

In the Red Deer and Lacombe country operations are not as early as usual due to the extra heavy precipitation, as in the Edmonton district it is rather slow, there is a great deal of work and has been going forward for the past three weeks. In Northern Alberta the people are hard at work, with an early season.

Grass is growing well and the south-western prairies are coming in with the snow melting and the south-eastern prairies have come through the winter in good condition, requiring only half the feed used the previous year.

Will Try Out Gold Claim

Northern B.C. Set to be Richer Than Klondike.

Placer gold mining on a large scale is usually the programme of an Edmonton concern, operating in the North. Mr. Hugh Green, late director of fish supplies to the Canadian army, is understood to have been sent to use the British naval vessels to explore the coast of California, and an experienced gold panner has been engaged for the season, and negotiations are now pending for the engagement of experts who will come from San Francisco to take charge of the company's operations. A Keystone still now at Rocky Mountain portage will be dismantled and taken to the Klondike.

An expert placer gold driller from California, and an experienced gold panner have been engaged for the season, and negotiations are now pending for the engagement of experts who will come from San Francisco to take charge of the company's operations. A Keystone still now at Rocky Mountain portage will be dismantled and taken to the Klondike.

The summer's drilling will be for the purpose, it is stated, for determining the amount of gold and platinum in the gravels of the Irenka from the surface to the sea rock. The company has a large quantity of gold in the river bed, about forty miles from its mouth.

This little old print shop is going to take a few days vacation. We don't take vacations very often, but the fact is that the weekly newspaper publishers of Canada are meeting in national convention at Victoria, B.C., later part of next week, and the Editor feels that he would like to attend this convention. The men who have already signedified their intention to attend present shows that it will be the biggest gathering of newspaper men ever held in Canada. In order to attend it will be necessary for us to get next week off. Right now we do not often find in this way we trust that our readers will overlook it this time.

A Dangerous Practice

A matter of vital concern to all railway travellers was brought to the attention of the public in a recent issue of the "Montreal Star" under the heading of "The Editor's Mail." The subject is:

A DANGEROUS PRACTICE.

Sir—There is one thing which I think should be brought to the attention of all officers of the rail way companies. That is the highly dangerous practice of smoking in sleeping cars.

In a train in which I was travelling the other night from Toronto to Montreal, I saw a man smoking in his berth and ask the attendant if he was smoking. This was a very short distance away as a fact the man was smoking a cigarette when he heard me speak. Quite apart from the lack of consideration which such a person shows for the serous-minded smokers who are very often forced to sit up in the course of the night, there is the danger which might have endangered the lives of some more smokers. These are surely enough reasons to prohibit all men smoking in bed in their own houses, let alone when they have been invited to do so by others. It is a much bigger danger in a train.

I make this case to the porter in the movies, that he told me that men could smoke in his flat, and then people could perhaps sit up and take notice. The word goes out to all men, and people in the ordinary berths, who can be asked to stop, so much as those who are smoking in their own homes, who can look their doors and tell the person who remonstrates to go to the level.

I am not an anti-smoking crank, but I am a responsible citizen, and I have had the misfortune to lose a relative in a railway fire, who was a non-smoker, and I am sure that if the big railway officials realized the danger involved in this practice, they would do much to put a stop to it. It is a much bigger danger to the travelling public, than arises about it.

Introducing on this matter, a prominent railway official, and the writer of this letter, has been misinformed in thinking that the matter had not been drawn to the attention of the railway officials, for it was one that had been emphasized many times before. They are taking every precaution possible to prevent fires, but the fact is that they cannot control every indifference of many members of the travelling public. However, the railway officials concerned in which the exception of a compartment had got his bedding in bed, and fire having been prevented only by the vigilance of the porter, consider that the best method of control is to prohibit the method of compartmenting, and the practice, which he added, seems to be growing rapidly in volume.

STRAYED

Strayed from 11 miles east of town, 4 head of work horses: two mare, bay and black gelding, 1 brown gelding, all branded G.W. on left thigh. Reward of \$2.50 per head for information leading to recovery.

Claresholm Local News

Barber's ad. for this week is designed by Ruth McComb.

Miss Moore is spending the week end with friends in Calgary.

Another Dominion census is on. R. K. Peck is the enumerator at Claresholm.

Don't forget the U.F.A. meeting on Saturday, June 11, at 2:30 p.m. in Harrison Hall.

Mr. Alvin has sold S. L. Frazer's ranch at Meadow Creek. He moved up on Tuesday last.

When the government surveyors blew in on Monday and began to set up their tents the kids thought sure it was an Uncle Tom's Cabin outfit.

The U.P. Women intend holding a sale of home made cooking on Saturday, June 11th, from 3 to 6, in the rear room. Tea will be served. Proceeds in aid of rest room.

There was a fine rain on Wednesday night, with good showers other days during the past week. The high winds and storm on Tuesday night did some damage to grain. Cutworms are reported to be doing some damage in parts of the district and grasshoppers are said to be hatching out in great numbers.

The Rex theater has contracted for June 13-14 the great photoplay production entitled "The Shepherd of the Hills." Story by one of the most popular writers of all time—Harold Bell Wright. Watch what the Calgary papers say about "The Shepherd of the Hills," which is playing at the Grand Theater a week previous to that of showing here.

GILBERT—MORROW

A very pretty wedding took place on Wednesday afternoon at the home of Mr. & Mrs. Frank Gilbert. Miss Jennie Isabella Morrow, of Claresholm, was united in marriage to Mr. Douglas Lyle Gilbert, of Nibleyfield. The ceremony was performed by the Rev. Mr. Clegg. The young couple so well and popularly known in the town and district will have the best wishes of their many friends.

Not How Many Hours Did He Devote to the Job

Not How Hard Did He Work

But How Many Acres Did He Plow

Not how long a time was taken, nor how much hard work was done—but what was ACCOMPLISHED? Results count! It takes one man a whole day to plow a stated number of acres and another a half day. The man who plows those acres in half the time is producing results. The man who works longer hours, but wastes time, is digging up his own pockets of labor on the basis of so much time and so much hard work—but upon what is being ACCOMPLISHED.

Power Farming Reduces Labor Costs

With a Fixed Market Price Lower Labor Costs Mean Greatest Profits

What has a fixed valuation. On the face, then, 200 bushels of wheat would bring you no greater or less profits than your neighbor's 200 bushels. But if all 200 bushels of wheat in the field have taken one-half of your time and costs profits will be twice that of your neighbor. Time saved is money earned. A Fordson Tractor saves time, cuts production costs, conserves labor. By using the Belt Pulley system, the tractor can pull a larger load over a longer distance. It is an ever-ready servant that will furnish the necessary power for harvesting the crops to lighting the home.

Agents for Oliver Special Plows, Roderick Lawn Mower Attachment, Automatic Engine Disc and Special Harrows. These implements specially recommended by Ford Motor Co. for the Fordson Tractor.

THE TEST

By E. L.

Written Exclusively For
This Paper

When Mary returned from boarding school to the white cottage where her mother lived in the little country town about sixty miles from a large city, she was pale, gaunt, thin, strong and beautiful.

Her mother, who had struggled through the years in a vain battle with poverty, looked over approvingly, appraising her youth, bloom and vigor as so many assets in the marriage market.

It was to this end that Mrs. Valentine cultivated the acquaintance of James Holcomb, a blase man of the world with keen, humorous, discerning eyes, but with a heart which was old, much older than the fifty years to which he really belonged.

And so trying to call back the youth which age, in an unprofitable life, always regrets, James Holcomb, attracted by Mary's fresh bloom and beauty assiduously courted her. And as he showered his attention upon her, she placed him under a spell with gifts.

Mrs. Valentine smiled approvingly.

"Thank God," she thought, "Mary shall never know the meaning of grinding poverty, and perhaps it will come to an end for me."

But Mary had no need to be grateful. Since she was a tiny, white-frocked mite she had been friends with Tom Daly who had grown into a tall upstanding six foot young man of twenty-three. Tom was a market gardener. To see the sun set over the down the main street of the little town every summer afternoon, she sweet and fresh and lovely and he upright, well-made and vigorous was a sight upon which the Gods might gaze. And Mary as she saw the smile of innocence and sometimes bent upon her knew that he offered her the most acceptable and beautiful thing in the world, the first love of his young manhood.

But he was poor and Mrs. Valentine made her sternly to put him out of her life. She would not let him and her son could not be bought off by the devotion of a clever man of the world like Holcomb who knew so well how to handle the heart of a woman. Then as her mother told her, stories of the struggle she had with poverty, and the long dread it had been for her, Mary, would follow the same path, the girl told Tom Daly on a soft, September evening as the stars twinkled wistfully down on them, half obscured by the trees that lined the path. She would give no reason, and Tom as young and inexperienced, did not know that her heart was breaking, as he strode away with youth's impetuosity, angry, sore and broken.

In a few weeks Mary's engagement to Holcomb, the millionaire, was to be made public.

"Have you seen her ring?" the townsfolk asked each other. It was a wonderful stone they all said; came from Egypt and was in a strange setting. They were going to live together, the neighbors said, and match for a poor girl. Of course he was a little old for her, but then he was such a smart man and so well to do.

"Better be an old man's darling, etc." cracked an old dame and all her cronies nodded assent.

But ah, had they read the heart of

Mary, there would have been a different story. For Mary's heart was in the approaching wedding; it was over at the little cottage where Tom was. Tom said no word, but he had changed. His shoulders drooped a little now and his face often had a grim look more quite foreign to him, and in his eyes instead of the white light of his first devotion, there shone a reckless glaze.

Mrs. Valentine, Mary and Holcomb were to spend a brilliant winter season in the city, during which time Mary was to be introduced to the social whirl. The money was plentiful and needed in every home. Dr. Hamilton's Pills of Mandrake and Bistort, 25c dealers, or The Catarhozine Co., Montreal.

It was after a marvellous ball one evening that Mary came to a realization of her heart. Holcomb as he bade her "good-night" drew her gently towards him and kissed her on the cheek. She receded and shivered from head to foot, and as they drove homewards while her mother talked she was very silent. For the rest of the night she slept tossled over on her little bed and in the morning wide-eyed and wailed she made her resolution.

News regarding Mary had not failed to come from the city to the little town, and her triumphs and beauty were the talk of the place. Tom Daly did not dream the master, only he remained silent when the others chattered. Some of them knew of his wound and some were sorry, but his general opinion seemed to be that he had inspired too much that Mary had been born with him, but in the stubborn pride of his youth he thought, he could have made her far happier than she could ever be with her elderly suitor. But he would make no move, nor say one word to his mother.

He was poor and Mary was the richest girl in town. He was willing to wait, but she didn't and he felt that his life was wrecked.

That evening he sat smoking quietly before his fire. The candles which were falling out, and everything was quiet and still. He often sat like this late until the dawn, conjuring up pictures of Mary as he knew her and loved her. Mary as she was in his arms, and the most daring thought of all, Mary as that other man's wife. To outsiders he was stern and non-committal, almost unnatural, for such a young man, but sorrows is a great teacher. Now he sat here, holding the candle and let his head sink into his hands. It was thus that Mary saw him as she crept up the garden path and looked in at the lattice window. When she saw him she opened the door and rushed in crying.

"I can't do it, I can't keep it up. If it gave me so much misery for a few months just to be engaged it suddenly came to me that he engaged it on through the years, and so a soul-breaking thing it is to be married to a man who does not care for you."

"I could not wait another morning though, I had to come to see you tonight."

And for the first time Tom held his heart's desire in his arms, and the light that never shone on their youthful faces came from within.

And so instead of a wedding in the big city, Mary and Tom were very quickly married at the Altar of the Bolsheviks.

According to an appeal for aid sent secretly from Moscow, a hundred thousand dollars were given to the concentration camps of Russia. The greater number are women and children, and their life is described as continual torture and suffering. They are not accused of any crime. They are kept at ages till the end of the world.

Tom believed that the statement was not exaggerated.

And so instead of a wedding in the big city, Mary and Tom were very quickly married at the Altar of the Bolsheviks.

They would be very poor Tom knew and he could not help a pang as he realized that he had been sold for a good cause.

For he determined that never had man worked as he would work to make it up to her. Then they both received a great surprise in the shape of a letter from James Holcomb containing a gift of \$100,000.00 to be used in the present and asking them, in their happiness, to sometimes remember him.

And the cottage of the Daly's contained much of human happiness. Mary insisted upon living there for a year.

Then because she knew that Tom wanted her to be bring the Queen of that little spot.

And bound for a beautiful island in the summer seas a white decked steamer, James Holcomb sat alone with his memories, not of Mary alone, but of a lost love thirty years before.

King Gives Coal to Poor People.

The King's solvents for the poorer people of Windsor, who are in difficulties owing to the shortage of coal, was demonstrated when the mayor of Windsor received a telegram stating the King had authorized the transfer of 25 tons of coal from the stocks of Windsor Castle to the coal merchants of the town for household use.

Why doesn't some genius crown himself with glory by discovering a process for extracting gold and silver from mining shares?

"Your Teeth"

By Rex Proctor McGee, M.D.,

D.D.S., Editor of Oral Hygiene.

HABIT

Copyright, 1921, by Rex Proctor McGee

Habit is simply cultivated instinct. It is just as easy to cultivate good habits as it is to cultivate bad ones if you start right. The habit of cleanliness is one that stays for life, because it is comfortable and gives a sense of well-being.

Every child that has been taught to take care of its wonderful little body, to wash hands and face and ears and teeth and take baths and to know the happiness of clean clothes, will carry this habit with him all his life.

The personal habits that we form in our first twelve years are the ones that mould our personality. That is one of the reasons for beginning good habits early, particularly with the teeth. Every mouth should be examined every three months. All cavities should be filled and every stain should be removed.

If temporary teeth are allowed to decay, food will pack in between them and make the gums sore.

Bad habits are easily formed. A child likes to sit upon one side of the mouth until the other side becomes lame and the poor little fellow tries to masticate that is impossible for him to propagate, with his front teeth alone.

If the food is not well chewed and mixed with saliva, digestion is very difficult. A great deal of energy is wasted in trying to digest food that is sent to the stomach in an unchewed state. The body wastes energy in trying to develop every child into a healthy adult. Every ounce of food that goes into a child's stomach should be converted into energy, but instead of making unchewed food only makes more work.

Adults like to sit with their legs crossed from the waist and the long list of diseases that follow decayed and abscessed teeth, good digestion would be worth every effort that we could make to keep the mouth in good condition. The teeth will grow into man and women with good teeth because the good tooth habits grows. Did you ever know a healthy, happy person with a poor digestion?

Rotting Alive In Russian Camps

Gentle Methods Adopted by the Bolsheviks.

According to an appeal for aid sent secretly from Moscow, a hundred thousand dollars were given to the concentration camps of Russia. The greater number are women and children, and their life is described as continual torture and suffering. They are not accused of any crime. They are kept at ages till the end of the world.

Tom believed that the statement was not exaggerated.

And so instead of a wedding in the big city, Mary and Tom were very quickly married at the Altar of the Bolsheviks.

They would be very poor Tom knew and he could not help a pang as he realized that he had been sold for a good cause.

For he determined that never had man worked as he would work to make it up to her. Then they both received a great surprise in the shape of a letter from James Holcomb containing a gift of \$100,000.00 to be used in the present and asking them, in their happiness, to sometimes remember him.

And the cottage of the Daly's contained much of human happiness. Mary insisted upon living there for a year.

Then because she knew that Tom wanted her to be bring the Queen of that little spot.

And bound for a beautiful island in the summer seas a white decked steamer, James Holcomb sat alone with his memories, not of Mary alone, but of a lost love thirty years before.

The King's solvents for the poorer people of Windsor, who are in difficulties owing to the shortage of coal, was demonstrated when the mayor of Windsor received a telegram stating the King had authorized the transfer of 25 tons of coal from the stocks of Windsor Castle to the coal merchants of the town for household use.

Why doesn't some genius crown himself with glory by discovering a process for extracting gold and silver from mining shares?

Your Red Cross Calls

Red Cross to-day is the vision of a wonderful ideal. Faith and effort can carry it to a glorious reality.

Its peace-time mission is to save lives and to help the suffering, exactly as it was on the battlefield.

It can ward off disease from your child and mine and the child that is yet unborn and make the world a better place for him to live in. It can ward off pestilence and contagion from your own community and so protect us all. It can help all the people of our country and of all the other countries into the common brotherhood of sympathy that is so necessary now if humanity is to keep the path of progress.

Red Cross has not forgotten the crippled, the blinded, the helpless, or the simply unsettled remnants of war, in our hospitals and throughout our land.

Learn all about the Red Cross Mission for

the disabled, the blinded, the helpless, or the simply unsettled remnants of war, in our hospitals and throughout our land.

WINNIPEG

Lloyd George's Chief Secretary

Possesses Wonderful Memory and is Remarkable Person.

J. T. Davies, the British prime minister's principal secretary, is a remarkable person. He possesses a wonderful memory, and is never at a loss for a fact or document. His room is filled with books and he has a library of his own. His correspondence is especially formidable. Even when they are not deliberately tortured, they are the victims of Bolshevik tyranny. The most humiliating tasks are reserved for women of the concentration camps. Women are not treated as human beings, but as animals.

Tom believed that the statement was not exaggerated.

And so instead of a wedding in the big city, Mary and Tom were very quickly married at the Altar of the Bolsheviks.

They would be very poor Tom knew and he could not help a pang as he realized that he had been sold for a good cause.

For he determined that never had man worked as he would work to make it up to her. Then they both received a great surprise in the shape of a letter from James Holcomb containing a gift of \$100,000.00 to be used in the present and asking them, in their happiness, to sometimes remember him.

Canada's Western Banks Better Than American

Extensive Inquiry Shows They Give Better Service.

The announcement of new legislation in Manitoba to advance the interest rate on loans under the Rural Credit Act from 6 to 7 per cent, has again taken an individual interest. This is the second order from Russia, following the previous one. The third is being received, and the fourth, the one for 100 locomotives, and practically has been filled, having been paid for in advance. On the present order has not been made in advance, however, and the Russian Government is to be paid in full when the order is received. The order is to be negotiated by the German manufacturers.

Four firms—the Krupp, Borsig, Hartmann and Loewe—are members of a pool which has signed contracts to deliver the locomotives.

There is a growing desire to

about a better public understanding that farm credits is based on business principles, is indicated in an article by C. W. Peterson, director of the Farm and Ranch Credit Service, which was written at the point in made that the banks, through their branch managers, have been giving better service in Western Canada than has been the case with the banks to the south of the border. This statement is made after a comprehensive inquiry into the banking situation on both sides of the line.

8:15 ADULTS 75c CHILDREN 25c

PREACHIN' BILL SAYS:

"God A'mighty sure didn't make a goose ter sing like er canary, and so you-all best try ter sing th' tune what He made fer you ter sing."

"It's plumb certain that th' biggest thing any one of us can do is ter help some other seller ter be better'n what th' rest of us 'll let him be."

"There's many a man done lost hisse'f er tryin' ter find a short cut in the night. A fel-ler's sure got ter be dad-burned certain of th' neighborhood fore he tries to get in th' back way."

Renew Your Membership In The RED CROSS

During the war everybody gave to the Red Cross. In these Western Provinces, hundreds of thousands of citizens joined in the greatest flood of gifts ever poured through a single voluntary organization.

Because the need was vital, the emergency ever pressing, there was little formality of membership. Everybody belonged to and was a part of the war-time organization of the Red Cross.

Red Cross now has peace-time duties just as important to humanity as its greatest service of devotion in time of war. The Red Cross Societies of the world have leagued together in a broad-gauge, carefully planned continuous campaign-

*For the Improvement of Health, the
Prevention of Disease and the Mitigation
of Suffering Throughout the World.*

This work is to be carried on at home, right here in our country by our own Red Cross and simultaneously in every one of the thirty-one countries associated in the World League of Red Cross Societies. The Red Cross peace campaign for general health and welfare, for the war work of the Red Cross or the great task that it is still carrying on, growing

out of its care of those who suffered in the war. To endorse, support and carry on its peace programme the Red Cross asks the approval of every citizen through the enrolment of his or her individual membership. The Annual Dues Fee is \$1.00 per year. The payment of this dollar when you enrol your name is all the money the Red Cross is asking of you.

Enroll

*As the outward and visible sign of your faith in the
Red Cross, your participation in its good work, your
support of its world-wide mission for the improve-
ment of conditions under which humanity lives.*

Enrolment Dates, June 5th-11th
